IMPETUS

leaplogic™ Suite

LEAPLOGIC ASSESS

Scan and profile your entire data estate automatically. Ensure intelligent, risk-free modernization.

Get an actionable blueprint to migrate legacy or cloud data assets, pipelines, business logic, semantics, RPA systems, BI reports, applications, and more.

Successful modernization starts with understanding what you have, what matters most, and what needs to be migrated. LeapLogic Assess automates discovery across your legacy estate, providing the actionable intelligence you need to accelerate and de-risk modernization from day one.

What you get

- Modernization planning intelligence
- Migration cost & effort visibility
- Workload optimization opportunities
- End-to-end dependency lineage
- Actionable modernization roadmap
- Cloud to cloud migration feasibility analysis

Reimagine data estate modernization with LeapLogic™ Assess

Full estate analysis
Scan, profile & inventory your entire legacy or cloud environment – SQL, schema, ETL, BI, RPA, OLTP apps, etc.

Conversational insights
Simplify discovery and migration planning with natural language conversations.

Prescriptive recommendations
Get actionable insights on migration pathways, workload prioritization, and target architecture optimization.

Uncovering hidden inefficiencies
Quickly identify redundant assets, dormant code, usage patterns, and optimization opportunities.

Migration wave planning
Intelligently group workloads into production-ready waves for phased modernization.

Risk control
Discover how to reduce migration complexity, optimize timelines, and minimize business disruption.

Cost and effort visibility
Estimate the expected costs and effort across the end-to-end modernization journey with precision.

Business context preservation
Retain business logic and ensure continuity by mapping workloads, data flows, and dependencies.

Accelerated code documentation
Convert complex source code into easily understandable information using agentic AI.

LeapLogic Assess ensures data estate modernization is not just a 'lift and shift' — it's intelligently orchestrated for sustainable AI success.

Why LeapLogic Assess?

Reduce migration scope before transformation begins

Minimize migration complexity, cost, effort, and risk

Accelerate and de-risk modernization from day one

Align tech choices with measurable business outcomes

Beyond LeapLogic™ Assess: Transform legacy estates into trusted, domain-aligned, AI-ready data products with Impetus LeapLogic Suite

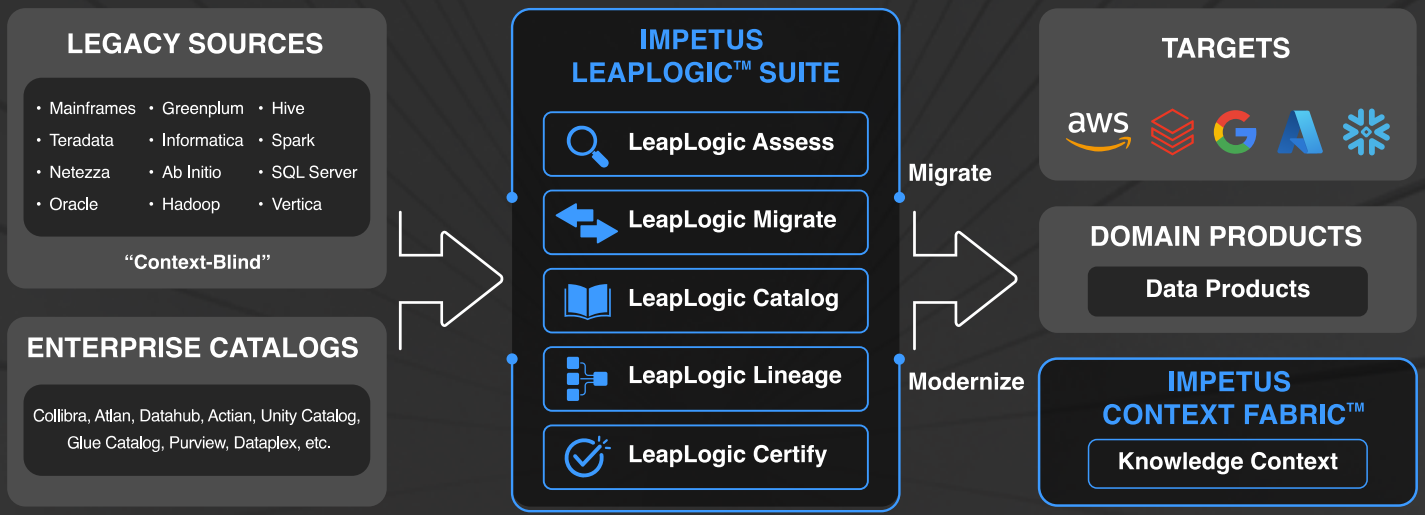

LeapLogic Assess is part of the award-winning Impetus LeapLogic Suite, which eliminates migration uncertainties with a fully automated, validated path from where you are to where AI needs you to be.

LeapLogic Migrate
Transform data warehouses, ETL scripts, RPA systems, BI reports, applications, and more from any legacy/cloud source to any target – with up to 95% automation.

LeapLogic Catalog
Enrich complex metadata with a unified semantic foundation, so that AI and humans can truly understand and act on it.

LeapLogic Lineage
Map logic, meaning, and dependencies across enterprise data products, enabling explainability, impact analysis & confident change.

LeapLogic Certify
Auto-validate migrated data for completeness, accuracy, freshness, and AI-readiness before go-live — no manual QA bottlenecks.

Deterministic by design. AI-augmented for repeatability & token efficiency.

100M+ lines of code auto-transformed to date

100% business logic preservation

Trusted by Fortune 500 enterprises

Ranked #1 by McKnight Consulting Group
