IMPETUS

leaplogic™ Suite

LEAPLOGIC MIGRATE

Data Estate Modernization for the AI-First World

Ontology-led. Semantics-driven. Powered by agentic AI.

4x faster transformation

50% less manual effort

50% cost savings

Up to 95% automation

100% business logic preservation

100% SLA compliance

Modernization is no longer just about code conversion. It's about transforming enterprise logic into meaningful context that AI can understand and act upon. Impetus LeapLogic™ Migrate modernizes any source platform, app, or workload to any target, while establishing a trusted context foundation for advanced analytics and AI.

Discover

Code, data, jobs, reports, dependencies, and domains

Map

Logic to ontology, entities, glossary, and target models

Transform

Code and pipelines with intelligent automation

Package

Validated, governed, AI-ready data products

Reimagine data estate modernization with LeapLogic™ Migrate

Any source to any target
Transform data warehouses, ETL scripts, RPA systems, BI reports, applications, and more from any legacy/cloud source to any target.

Fast, simplified journey
End-to-end automation from assessment to validation; handles complex patterns using AI

Changed model-based transformation
Incorporates data model changes during conversion and optimizes for the target

AI-ready context foundation
Creates context-rich data products with semantic traceability from code to concept

Metadata intelligence
Automatically generates semantic metadata, business glossary, entities, and policy context

Seamless cutover
Delivers platform-ready packages with orchestration, deployment, and governance readiness

LeapLogic ensures your modernization journey is not just complete — but risk-free, AI-ready, and designed to elevate performance and business outcomes.

Beyond LeapLogic™ Migrate: Transform legacy estates into trusted, domain-aligned, AI-ready data products with Impetus LeapLogic Suite

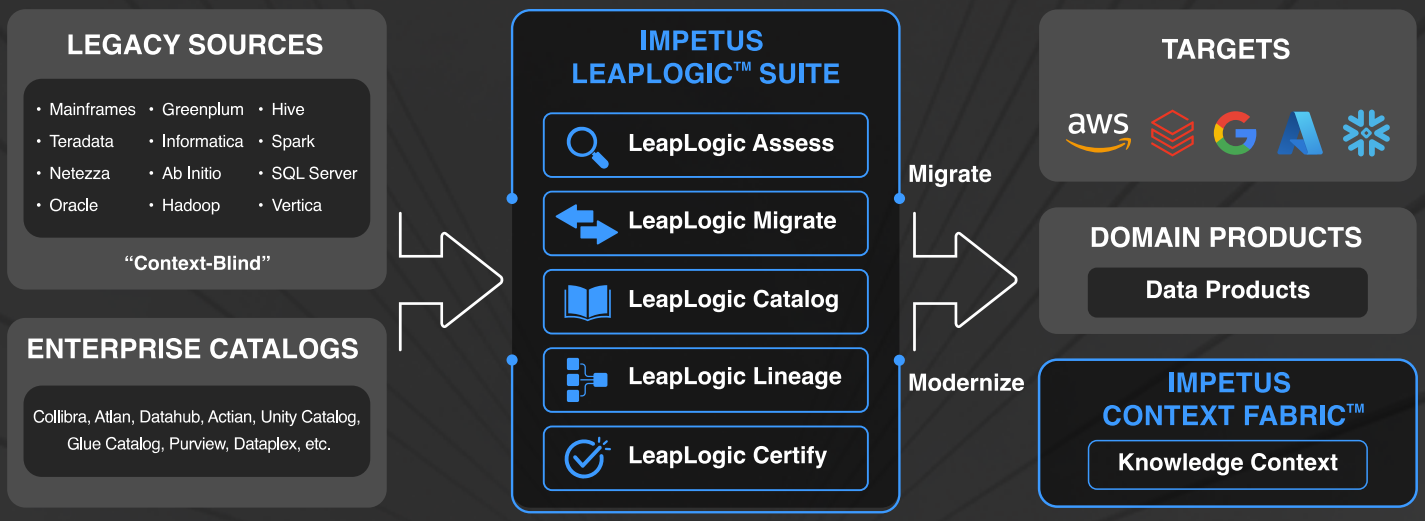

The longer you stay on legacy infrastructure, the further behind your AI becomes. LeapLogic Migrate is part of the award-winning Impetus LeapLogic Suite, which eliminates migration uncertainties with a fully automated, validated path from where you are to where AI needs you to be.

LeapLogic Assess
Scan, profile and inventory your entire legacy environment (SQL, ETL, schema, lineage, and more) and get an actionable blueprint for risk-free migration.

LeapLogic Catalog
Enrich complex metadata with a unified semantic foundation, so that AI and humans can truly understand and act on it.

LeapLogic Lineage
Map logic, meaning, and dependencies across enterprise data products, enabling explainability, impact analysis & confident change.

LeapLogic Certify
Auto-validate migrated data for completeness, accuracy, freshness, and AI-readiness before go-live — no manual QA bottlenecks.

Deterministic by design. AI-augmented for repeatability & token efficiency.

100M+ lines of code auto-transformed to date

200+ migrations with a 100% client success rate

Trusted by Fortune 500 enterprises

Ranked #1 by McKnight Consulting Group
